

The **ARA-0332** is a lightweight tactical SINGARS Antenna. The antenna's unique design enables rapid deployment in theater or storage for future use. This antenna maintains low VSWR and high gain across the band without the need for external tuning.

The **ARA-0332** can either be deployed on the ground or mounted on a standard antenna mast. Furthermore, the **ARA-0332** can be used with any SINGARS transceiver.

SPECIFICATIONS:

Gain	3 dBi nominal
Frequency	30 – 88 MHz
Impedance	50 Ohms Nominal
VSWR	2.5 : 1
Radiation	Omni-directional
Polarization	Vertical
Power Handling	200 Watts
Antenna Connector	N Female
Operating Temperature	-40 - +65 Deg. C
Weight	10 Pounds Maximum
Length	9.75 ft
Finish	CARC Green
Options	HC-0332 Hard Case VM-0332 Vehicular Mount
NSN	5985-01-498-0332
